

Suzy Homemaker 11 X 35 Wall Hanging

This novelty wall hanging for the kitchen was inspired by the piece of retro fabric found at the quilt shop. It was created by fussy cutting the large images from the fabric and placing them on three inch hexagons. These were joined in a row and connections filled with three inch triangles and half triangles. A black border was added, a second border of the novelty fabric, it was quilted and bound with black fabric.

This piece is a great example of letting the fabric inspire the project.

Soccer Pictures 16 X 16 Wall Hanging

This piece is another use of 3 inch hexagons with a picture printed on them. In this case pictures of the soccer teams from multiple years are connected and separated by 3 inch diamonds, three inch triangles and half diamonds, bordered and backed with a soccer motif fabric. A great way to display and preserve pictures from children's sports teams.
